

Jumbo Whole House Twin Water Filter System

Replacement cartridges: 1st stage PS20W20 2nd stage CB10W20

A extra high capacity twin whole house water filter system. The jumbo twin system has large diameter cartridges to handle the difficult and high dirt applications. Perfect for households wanting to filter all water being used in the home, not only providing great tasting water for the kitchen but also protecting your hot water service and tap seals. Great quality filtered water is available for bathing, laundry, cleaning and drinking. The system reduces sediment, particles, chlorine, organics, taste & odours. Filter cartridge change out is recommended annually and the system is for use on mains treated water or pumped tank water.

Note: a bypass assembly is available upon request.

Model: JB200

PS20W20

CB10W20
